

Former Student or Parent of Former Student,

In the upcoming weeks, you may receive a survey from Wayne State University about your experiences with special education. The purpose of this survey is to learn about any employment and/or education you have had since leaving high school. Your answers to these important questions may help us better understand what students do after high school. It is important for former students to return the survey. The survey will come with instructions on how to access the survey online, as well. Thank you for helping us to collect this important information.
