

GIRESD Non-Negotiable Mathematics Standards

Kindergarten

Do not include red portion of the standard. (Strikethrough)

Add language in blue

Green - Undecided

- K.CC.1 Count to 100 by 1's and 10's.
- K.CC.3 Identify and write numbers from 0 to 20. Represent a number of objects with a written numeral 0-20 (with 0 representing a count of no objects).
- K.CC.4 Understand the relationship between numbers and quantities; connect counting to cardinality.
- When counting objects, say the number names in the standard order, pairing each object with one and only one number name and each number name with one and only one object.
 - Understand that the last number name said tells the number of objects counted. The number of objects is the same regardless of their arrangement or the order in which they were counted.
 - Understand that each successive number name refers to a quantity that is one larger.
- K.CC.5 Count to answer "how many?" questions about as many as 20 things arranged in a line, a rectangular array, or a circle, or as many as 10 things in a scattered configuration; given a number from 1–20, count out that many objects.
- K.CC.6 Identify whether the number of objects in one group is greater than, less than, or equal to the number of objects in another group, e.g., by using matching and counting strategies.
- K.CC.7 Compare two numbers between 1 and 10 presented as written numerals.
- K.OA.1 Represent addition and subtraction with objects, fingers, mental images, drawings, sounds (i.e. claps) acting out situations, verbal explanations, expressions or equations. (Using non-negotiable representation- 5 and 10 frames, pennies)
- K.OA.5 Fluently (accurately, efficiently and flexibly) add and subtract within 5.
